César Martín Muñoz Arauz

Software Developer @ World Order Studio | Computer Science + Business Administration

Greater Valencia Metropolitan Area

Summary

I am a senior IT technician and student of Computer Engineering and Business Administration, focusing on full-stack development, specializing in creating robust business solutions using Java (Spring Framework) on the backend and JavaScript (React) for dynamic interfaces. I have practical experience with SQL and NoSQL (MongoDB) databases, and my approach is geared toward architectural efficiency and scalability.

Technology stack

- Backend: Java, Spring Framework (Spring Boot, Security), Kotlin
- Frontend: JavaScript, React, HTML5, CSS3
- Databases: SQL (PostgreSQL, MySQL), NoSQL (MongoDB)
- Methodology: Agile Development (Scrum/Kanban)

Please feel free to contact me via direct message on LinkedIn to discuss collaboration opportunities.
